

USB Handset CM-01

The **USB Handset CM-01** is designed to provide high quality voice. It can work with all PC-based softphone applications, such as **Skype, MSN, Yahoo Message, Xten, Dialpad, MediaRing, Net2phone**, etc. Simply plug it into your PC's USB port and you can make phone calls solely from one handy USB handset and not from complex external speakers and microphone.

Key Features

- Supplied stickup hook for hangup convenience.
- USB Interface PnP. No external power/sound card required.
- High quality for full duplex communication.
- Handy, style, portable for notebook PC.
- Built-in driver. No need for any additional driver for Windows.
